## New concierge service simplifies life for busy families

**M**any families in our community are overwhelmed by lengthy errand lists, unexpected issues to resolve and simple chores to manage. Custom Care Forever, LLC provides best in class concierge services designed to help make life easier, less stressful and more enjoyable. Their clientele runs the gamut, from busy professionals to seniors to extended families across the Five Towns, Far Rockaway and the greater New York area. Their mantra is simple: they are there for their clients whenever, wherever and for as long as you need them.

To meet the needs of their diverse clientele, Custom Care Forever provides services such as daily check-in phone calls, transportation, grocery shopping, daily errands, light housekeeping, banking, pet care, meal preparation, email writing, expedited health care appointments and more. Recognizing that everyone's needs are unique, their membership plans can be easily customized to fit each client's lifestyle.

"Over the past few years, the staff has taken on the responsibility of managing daily household chores, meal preparation, bill paying and driving my children to doctor's appointments, sports activities and any other activities that they participate in. The staff members are kind, caring, flexible and willing to accommodate my busy, erratic schedule," says Donna S., a single mother of twins.

The company was founded by members of the Glaubach family who have many years of experience servicing the needs of clients. They

have built a caring, experienced staff that is always prepared to go above and beyond to ensure a great client experience.

"We hired Custom Care to help Grandma and Grandpa take care of their everyday needs. Custom Care has done an amazing job of managing their daily lifestyle. My family has met Diana, their client service specialist, on many occasions. We are very impressed with her courteous, respectful demeanor and ability to get things done. We have since hired her to take care of managing my expenses at Brandeis, while I focus on my studies," says Anthony G, the 21-year-old grandson of an existing client.

Custom Care Forever respects clients' privacy and keeps all information confidential. To ensure clients receive both quality service and peace of mind, all employees are vetted, bonded and insured.
